

We know that you may be working long hours, and we understand how hard it is to care for your beloved pets during these uncertain times. We'd love to help out our community and their dogs in any way possible, so we would like to offer 25% off daycare and lodging services to our fire, police, medical and healthcare professionals, along with our essential workers at grocery stores, pharmacies and child-care facilities. We are offering curbside pick-up and drop-off to minimize potential exposure and are taking extra precautions to ensure the safety of our team and clients. Please let us know if you'd like to use our services, and we'd be happy to schedule your pup's free orientation day. We truly can't thank you enough for all that you do.

Your friends at Doggie District,

## **Devon Bassett**

**Leader of the Pack**
